

Dear Llyas,

I wanted to share my satisfaction with GrantAppli. Since recently integrating your software, I see an impact on 1HOPE's ability to secure funding for our mission. GrantAppli is user-friendly, and your commitment to tutorial sessions has boosted my confidence in navigating its tools. This platform has enhanced our grant fundraising by:

- **Reducing Draft Time:** Tasks that previously took hours are now completed in a fraction of the time, allowing time to focus on partner relationships and program impact. It ensures our documents are submitted with edited, refined narratives, creating a compelling case for funding.
- **Improving LOI/Application Quality:** GrantAppli's analysis of foundation requests and requirements verifies our applications are polished, professional, and aligned with their mission and values.
- **Organizing Content:** The software allows 1HOPE to manage several grants, repurpose documents, and make the submission process efficient.

GrantAppli has already given 1HOPE the confidence to pursue funding opportunities we previously lacked the capacity to explore. Thank you for providing a solution that makes grant seeking more efficient for organizations like ours. We look forward to continuing our partnership.

Sincerely,

Kathy Dishongh
