

Dear Llyas and GrantAppli Team,

I hope this message finds you well! I am writing to share how Tony Foundation has significantly benefited from using GrantAppli in our efforts to apply for funding through grants. As a foundation dedicated to providing financial support to families affected by cancer, efficient and effective grant application processes are crucial for us. I have thoroughly enjoyed learning and using the GrantAppli software, and I'm excited to see what I can accomplish this year using it.

Since integrating GrantAppli into my workflow, I have experienced a remarkable transformation in how I approach grant writing. The software's comprehensive suite of features has streamlined our operations, allowing me to focus more on our mission and less on the complexities of traditional grant applications.

One of the standout features of GrantAppli is its ability to simplify the research and organization of funding opportunities. The platform enables us to identify funders that align with our mission and analyze their compatibility with our goals by evaluating foundation websites. I can make certain that I'm targeting the right grants to maximize our chances of receiving funding.

GrantAppli's AI assistance has been instrumental in enhancing my efficiency in writing and organizing tasks. The software provides guided workflows and tools specifically designed for grant writing. This has allowed me to have multiple grants going at the same time. One grant used to take me at least 5-6 hours minimum to research and write, but with GrantAppli, I can finish some grants in an hour or less. I love how I can keep all of my projects in one place, and I will get alerts if my deadline is approaching. This software has helped me keep on track with grants.

Additionally, the collaborative features of GrantAppli allow me to share my work with my team seamlessly, ensuring that all members are on the same page and can contribute effectively to each project. It has been a game-changer to be able to have one place that allows me to share my work with other members of the board.

In conclusion, GrantAppli has not only made the grant writing process easier for Tony Foundation and me but has also empowered us to explore new opportunities with confidence. Grant writing can be very stressful and tedious, but with this application, I know I am submitting the best possible answers with each grant I submit. We are grateful for the support this software provides and look forward to continuing our partnership as we strive to make a positive impact in the lives of those affected by cancer. Thank you so much, Llyas, and thank you to your team for your support in learning and using this awesome software!

Warm regards,

Danielle Ponichtera
